FAQ

Free? What's the catch?

There isn't one. We plan on selling cosmetics in the future: stickers, themes, skins, etc. Discord's communication features will remain 100% free.

What devices support Discord?

Discord can be launched in your browser (Firefox, Google Chrome) or downloaded for Mac OSX and Windows. We also have mobile apps for your Android or iOS device. Everything is synced to a cloud, so you can continue your conversations on any device.

Can I host my own server?

We host everything for you in order to ensure DDoS protection and cross-platform synchronization.

Is my IP safe?

Yup.

Why should I switch? Teamspeak works just fine.

We're free. DDoS Protection. Modern text chat features. Designed in 2015.

Why save my information?

Please refer to our [Privacy Policy](#) and [Terms of Service](#).

Can I make some suggestions (or question your motives)?

You can and you may! Hit us up on [Twitter](#), where we're fairly active. You can also reach us through our [Support Page](#).
